

31th SUPERBIKER

06-07-08/10/2017 - METTET (Belgium)

Summary of the Supplementary Regulations

IMN 298/01

Definition:

The R.U.M.E.S.M.(Royal Union Motor Entre Sambre et Meuse) will organize, on 06-07-08 october 2017, a Supermoto meeting, that will be held under the international F.I.M.(Fédération internationale de Motocyclisme)sporting code, the European F.I.M.(Union Européenne de Motocyclisme) sporting code, the National F.M.B.(Fédération Motocycliste de Belgique)sporting code, their annexes and appendixes, when applicable, and these supplementary regulations.

By entering the meeting, the riders agree to submit all these rules.

Circuit:

Total length: 1537m divided as follows: (tarmac 60%, unstabilized 40%).

Entry forms:

The only entry form for this race is available on our website and must be completed online:

WWW.SUPERBIKER.COM.

Entry form must be received before 15/09/2017.

The admission fee is €35, 00.

In case of payment after 14/09/2017 this fee will be increased with €50, 00.

The admission fee includes 3 entries (pilot - mechanic - spectator) and a place in the paddock with all accommodations.

The entry of a rider will only be effectif after receipt/registration of the payment.

Every rider who has sent his entry form and paid in due time will be informed of his acceptance or his refusal at the latest 10 days after the closing date for entries.

In case of cancellation of the engagement by the rider before 23/09 (with justification), the organizer will refund 50% of participation fee. After 22/09 the rider will not be refunded.

The driver, as a participant at the event, allows the organizer to promote his name after his registration.

Authorised bikes:

Categories Starbiker, Prestige Supermoto, Supermoto: class OPEN - 100-900cc (maximum 2 cylinders)
Electric bike

Categorie Quad : 451 - 750cc 4T Max. 2 Cyl.

351 - 420cc 2T Max. 2 Cyl.

421 - 750cc 2T Max. 1 Cyl.

The maximum number of riders allowed simultaneously at the track amounts to:

48 for bikes and 30 for quads.

Sound limits:

2mMax method: max. 115dB/A

Dynamic method: max. 103, 5 dB/A

During practices and the races, dynamic noise measurements can be performed along the circuit.

At the exit of turn, the meter is placed 10 m after the acceleration point, at a distance of 7.5 m and perpendicular with the ideal rolling line and at a working height of 1.5 m, the meter must be directed perpendicular towards the rolling line.

The determination of a too high noise value of a machine is made on 3 passings of the machine in the same test / run during which the noise limit (taking into account the tolerances) is exceeded.

If there is a machine with too high noise value, the Race Director must be informed immediately.

Penalty: More than 2 dB/A too high: 1st x = black flag - 2nd x = exclusion

NB: After a black flag the machine can be repaired and can restart the practice/ race.
